

A treemap visualization showing the distribution of five categories. The largest category is 'Perceptions' at 40%, represented by a dark purple rectangle. The second largest is 'Priority' at 26%, represented by a light purple rectangle. The third is 'Policy' at 25%, represented by a medium purple rectangle. The fourth is 'Health' at 6%, represented by a dark red rectangle. The smallest is 'Behavior' at 3%, represented by a yellow rectangle. The rectangles are arranged in a grid-like fashion, with 'Perceptions' and 'Priority' on the left, 'Policy' on the right, and 'Health' and 'Behavior' at the top right.
